NEOVEST UNVEILS ADVANCED EXECUTION FEATURES FOR TRADING ON METALS

New York, 3 Oct. 2017 – Neovest, Inc., the leading electronic trading solution for buy- and sell-side institutions, today announced the release of advanced execution tools designed to trade instruments on the London Metal Exchange.

Neovest's newest feature integrates single-click order execution functionality with London Metal Exchange market data and contract-date calendars. Within Neovest, users may now create unique London Metal Exchange order tickets and manage orders using comprehensive yet efficient operations.

The inclusion of London Metal Exchange data is the latest enhancement to Neovest's connectivity to 130 futures, equities, and options exchanges across North America, EMEA, Asia Pacific, and Latin America.

Jarrett Sydell, Neovest's Global Head of Product Management, said, "Neovest continues to develop innovative tools for futures trading globally. We designed the new London Metal Exchange module to blend seamlessly with the sophisticated products traded on the exchange." Mr. Sydell continued, "This newest feature is further proof of Neovest's ongoing commitment to provide leading-edge multi-asset execution products for our clients."

Neovest's CEO, Greg Cook, stated, "Integrating London Metal Exchange's unique toolset into our single-click trade workflow is an ongoing example of Neovest's commitment to provide the best solutions for our customers." Mr. Cook furthered his emphasis on partnerships and productivity by adding, "We look continually for opportunities to enrich the overall trading environment, whether that means working with third-party sources, providing data to internal/external systems, or creating unique designs for clients to utilize their proprietary data within Neovest's infrastructure."

About Neovest

Founded in 1984, Neovest, Inc. is a worldwide leader in trading technology designed to optimize the order and execution management of global equities, futures, and options. Neovest, Inc. is independently operated, offering comprehensive, broker-neutral products to the buy- and sell-side communities. Neovest technology is fully-hosted, providing low-latency tools for single-stock/single-contract, multi-leg-instruments, and portfolio trading. Its services encompass EMS, OMS, compliance, analytics, and API solutions. Comprehensive and innovative pre-, post-, and in-trade analytics combined with real-time market data from more than 130 global exchanges set Neovest apart. Neovest routes to over 360 international liquidity platforms including exchanges, ECNs, MTFs, ATs, broker algorithmic product desks, Algo suites, crossing networks, dark pools, and IOIs. Neovest, Inc. is a subsidiary of JPMorgan Chase & Co.
